

The image is a screenshot of a Windows 3.11 desktop. At the top, a taskbar shows the 'End-All 10.1c' application running. Below the taskbar, a 'Laundry Detergent - Powder' dialog box is open. The dialog box has a title bar with a standard Windows icon and a close button. Inside the dialog, the text 'Customer: Filigenzi, Marc' is displayed. Below this is a table with the following columns: 'Users', 'Life Qty', 'Pre-ferred', 'Life Data', 'Per Case', 'Product Description', 'Cost', and 'Item'. The table contains 22 rows of data. The 'Pre-ferred' column has checkboxes, some of which are checked. The 'Life Data' column has checkboxes, some of which are checked. The 'Per Case' column has checkboxes, some of which are checked. The 'Product Description' column contains text descriptions of various laundry detergents. The 'Cost' column contains numerical values. The 'Item' column contains alphanumeric codes. At the bottom of the dialog box, there are two buttons: 'Save' and 'Cancel'. The background of the desktop is a patterned wallpaper, and the taskbar at the top shows several icons.

The user selects the category s/he wishes to order from, and then selects each item that s/he wishes to place on a standing order form. For this example, category 27 (Laundry detergent – powder) was chosen, as shown above.
